

ABSTRACT

The present invention is a food supplement for a human body's natural immune function, formed from natural occurring substances in the form of a broth. The food supplement consists of the following:

- 5           (a)     1 to 35 mg. per milliliter - Apigenin
- (b)     200 to 600 mg. - Chrysin
- (c)     200 to 600 mg. - Colorius Versicolor
- (d)     50 to 150 mg. - 3,3' Diindolymethane (DIM)
- (e)     50 to 150 mg. - Resveratrol 25%
- 10          (f)     50 to 150 mg. - Turmeric Extract 95%
- (g)     40 to 140 mg. - Green Tea Extract 95%
- (h)     20 to 80 mg. - Quercitin Dihydrate 99%
- (i)     15 to 75 mg. - Phosphatidyl Choline 50%
- (j)     Trace mineral selenium - L - 10 to 60 mgs.
- 15          L-Selenium Methionine (5000 mcg/gr)

It may be advantageous to also include 25 mg to about 150 mg. of Myricetin.
